Prices are already to high for most to afford. Everything is going up and we are having to deal with it the best we can. They need to budget and cut back just like everyone else. That's the cost of doing business. It should be seen for what it really is GREED! We shouldn't have to pay for the increase in fuel to them, we already have to pay for the increase to us. Then they come out with these smart meters and everyones bills double or tripled and they can't explain it. They should have already made a ton on over charging people already and not giving it back. I haven't/didn't get a raise when everything started going up. Is anyone going to give the working people a raise to cover the rising fuel cost and grocery cost?

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *

I do not, but if I need to for my opinion to count then I will try to.
